Capabilities Statement for NEW, Inc.

Low Floor Fronrunner 15 PAX Mini-bus

Flexible Seating - up to 3 Wheelchairs

Core Competencies

- **EASY ENTRY & EXIT FOR ALL** – Increase service efficiency and quality with faster access and egress for wheelchair as well as ambulatory passengers with a lowered flat floor and simple fold-out-ramp. Easy, Efficient, Fast. Over 3X faster than a wheelchair lift. Transport your Passengers– faster – safer – more efficiently – and with more dignity.
- **COMFORTABLE RIDE & SPACIOUS INTERIOR FOR A SUPERIOR PASSENGER EXPERIENCE** - Improve the quality of everyone's transportation experience with no steps and no wheelchair lift. Passengers enter through widest Bi-Fold doors available in this class, with the option of an Electric Dual Leaf Transit Door with sensitive edge and LED Lit Entry button. Those with a wheelchair board using a lightweight, fold-out ramp. Everyone else walks into a spacious double height cabin with large tinted optical grade windows, and every passenger experiences a smooth comfortable ride on suspension with an optional 4-Corner kneeling Suspension System with ECAS available.
- **PROVEN DURABILITY + LOW MAINTENANCE = LIMITED DOWNTIME** – The low Floor Fronrunner Scored an unprecedented 91 out 100 at Altoona's Pass/ Fail Durability/ Performance 5 Year/150,000 mile test. While the LF Fronrunner was allowed 125 hours of downtime, it experienced only (1) hour of downtime. No other bus in this category has completed Altoona Pass Fail with a higher score or so little downtime. – All standard

New England Wheels, Inc. is a Bus manufacturer based in Billerica, MA. In 2016, NEW, Inc. (in business since 1988) introduced the low floor mini-bus. The low Floor Fronrunner achieves a number of game changing design goals in the pursuit of providing a better, safer and a more economical solution for transporting ambulatory and non-ambulatory passengers. No other bus manufacturer has taken such a modern technological approach to low floor design. In Nov 2017, NEW submitted the Fronrunner to Altoona under 5yr/150,000 pass/fail test. The Fronrunner sailed through the test suffering no downtime or failures to its suspension/chassis/climate system/ air ride system or body structure.
